

Plastic Parks in India

Plastic Park is an industrial zone, developed in cluster approach for establishing units for plastic enterprises and its allied. Industries to consolidate and synergize the capacities of the domestic downstream plastic processing industry. Plastic Park has state-of-the-art infrastructure with common facilities including plastic waste management system. Plastic Parks plays key role in growth of the plastic processing community material and machinery suppliers, plastic processing companies, plastic recycling companies. The Plastic Park are being developed by State Governments with the grant-in-aid funding support from Department of Chemicals & Petrochemicals, Ministry of Chemicals & Fertilizers. These parks have great potential for attracting investments and generating more employment opportunities for the local population.

The details of all 6 plastic parks are given below.
